I am a 3rd year student at Izmir Katip Celebi University Faculty of Pharmacy. During my education, the profession of pharmacy is a whole and I want to experience each of its distinctions and proceed through that distinction that I determined after graduation. While I want to experience the independent pharmacy, hospital and industrial internships in separate semesters during my internship periods, I would like to experience the academy with this project.

EXPERIENCE

07.2022- 08.2022 **Trainee Pharmacist (1mos)** **Izmir, Turkey**

EDUCATION
